FROM THE CHAIRMAN'S DESK

*EKA MOBILITY PIONEERS
ENVIRONMENT-CONSCIOUS
MOBILITY SOLUTIONS FOR
A SUSTAINABLE FUTURE,
FORTIFYING INDIA'S
PUBLIC TRANSPORT
AND ECONOMY.*

It brings me immense pleasure to share the latest updates and achievements of EKA Mobility as we continue to make strides in the electric mobility industry.

First and foremost, I am delighted to announce that EKA Mobility's order book has been growing steadily over the past quarter. This is a testament to the hard work and dedication of our entire team, from our talented engineers and designers to our committed sales, service & support staff. Our clients and partners have shown their trust in us, and we are determined to deliver on their expectations.

One of the most exciting developments on the horizon is the upcoming launch of our new electric Light Commercial Vehicle (e-LCV). This cutting-edge addition to our product lineup is the result of relentless innovation and customer feedback. With sustainability at its core, our e-LCV is set to redefine urban logistics, offering businesses an eco-friendly and cost-effective alternative for their transportation needs.

FROM THE CHAIRMAN'S DESK

Moreover, I would like to highlight the positive impact our industry is making on the national level. The recent launch of the Prime Minister's e-Bus Seva initiative underscores the significance of electric mobility in our country's journey towards a greener future. EKA Mobility is proud to be a part of this transformative initiative, and we are committed to contributing to the success of this visionary program.

As we move forward, it is imperative that we continue to push the boundaries of innovation, sustainability, and customer satisfaction. Our commitment to quality and excellence remains unwavering, and we will continue to invest in research and development to bring forth pioneering solutions that benefit our clients, the industry, and the environment.

I want to take this opportunity to express my gratitude to each member of the EKA Mobility family, as well as our esteemed clients and partners, for their unwavering support and dedication. Together, we are shaping the future of mobility in India and beyond.

Thank you for your commitment, hard work, and passion.

Warm Regards,
DR. SUDHIR MEHTA
FOUNDER & CHAIRMAN
EKA MOBILITY

EKA UPDATES

Exciting Pre-Launch Special Offer on The EKA K1.5

We're excited to announce exciting pre-launch offers on our groundbreaking electric Light Commercial Vehicle (e-LCV), the EKA K1.5! At EKA Mobility, we're dedicated to revolutionizing urban logistics sustainably and innovatively. The EKA K1.5 reflects this commitment, and as a token of our gratitude for your unwavering support, we're offering an exclusive pre-launch special offer and pricing for valued suppliers, partners & select customers. To know more about the offer, contact marketing@ekamobility.com or call +91-9371345345

EKA Mobility Embarks on The e-Bus Revolution: The Journey Begins

As we celebrate our recent victory, in the CESL (Convergence Energy Services) tender, the stage is set for an exciting new chapter. This remarkable achievement has the potential to usher in a fresh era of learning, growth, and innovation for our company.

Join us in exploring this intriguing query as we delve into the insights of Dr. Sudhir Mehta, Founder and Chairman of Pinnacle Industries Ltd. and EKA Mobility. "The market is so grossly under-penetrated in India for public transport that we have to bring about a big change. With these tenders, the message is clear that electric mobility is the economically correct thing to do," says Mr. Mehta.

EKA Mobility Aims to Double Its Volume Every Year for The Next 3-5 Years

A big thank you to CNBC TV18 India for spotlighting EKA Mobility on Startup Street! Our Founder and Chairman, Dr. Sudhir Mehta, took the stage to unveil EKA Mobility's bold aspirations – delivering 400-600 e-buses in FY24, and pledging to double our volumes annually over the next 3-5 years.

EKA Mobility's K1.5: Upgraded Certification for New HV Battery Standards

We're pleased to share that EKA Mobility has successfully adapted to the latest HV battery pack certification regulations, effective from April 1st, 2023. In alignment with these changes, we rigorously tested our HV battery pack to meet the new standards.

This accomplishment allows us to extend the type approval certificate for our Puma K1.5 model, positioning us to cater to a broader market. At EKA, we're dedicated to staying ahead of industry updates to deliver innovative and compliant solutions.

EKA Mobility's Milestone: New Approval Certificate for 9m City Bus with 900mm Floor Height

We're proud to announce our latest achievement in response to market demands. Following the prior certification for our 9m city bus with a 650mm floor height, we secured a type approval certificate in early September 2023 after rigorous testing at ARAI. This allows us to offer 9m city buses in two variants, with 650mm and 900mm floor heights, expanding our product range to better serve our diverse customer base.

Putting The Brakes on Accidents: How to Prevent Break Falures?

In our ongoing commitment to road safety, Dinesh Dani, EKA Mobility's Chief Technology Officer, highlights a pressing issue in India. The country grapples with a high number of road accidents, accounting for a significant global share. Despite efforts by the government, the root causes are often traced back to brake failures and poor vehicle maintenance. Mr. Dani also identifies shortcomings in Indian brake regulations, emphasizing the need for enhancements to align with modern road conditions and technological advancements. Addressing these gaps is crucial in our mission to create safer roads for all.

EKA Mobility Bags Order of 57 e-Buses from Mira-Bhayandar Municipal Corporation

We're thrilled to announce that EKA Mobility has been chosen to supply 57 e-buses to Mira-Bhayandar Municipal Corporation.

Our partnership with the Mira Bhayandar Municipal Corporation marks a significant milestone in our mission to revolutionize urban mobility with eco-friendly solutions. These e-buses will not only reduce carbon emissions but also enhance the overall commuting experience for residents and visitors alike.

Our cutting-edge e-buses combine advanced technology, comfort, and efficiency to provide a greener and smarter way to travel. With zero tailpipe emissions and whisper-quiet operation, these buses are paving the way for a cleaner and quieter future. We extend our heartfelt gratitude to the Mira-Bhayandar Municipal Corporation for choosing EKA Mobility as their trusted partner in their sustainability journey. Together, we're driving towards a greener tomorrow, one electric bus at a time!

Auto engineering looks up with shift to autonomous, EVs

Automobile engineering is emerging out of the shadows of mechanical engineering with the advent of electric mobility, autonomous vehicles and alternative fuels. It is now an amalgamation of mechanical engineering, electronics engineering, instrumentation, control engineering and computer engineering.

Sudhir Mehta, founder & chairman of Eka Mobility and Pinnacle Industries, says there is a growing need for experts in EV technology. This includes knowledge of battery systems, electric powertrains, charging infrastructure, and software integration. "At Eka, we are developing hybrid powertrains, fuel-cell vehicles, alternative fuels, and urban mobility solutions. There is no readymade manpower for this. Out-of-box thinking is required to fit into these new roles," Mehta says.

EVs, renewable energy, and smart grids key to a greener future

In a conversation with TOI, our Executive Director at EKA Mobility, Hirdesh Thakur, emphasized the critical role of Electric Vehicles (EVs), renewable energy sources, and smart grids in shaping a more environmentally sustainable future. These three pillars are at the forefront of our efforts to combat climate change and create a cleaner world. Mr Thakur highlighted how EVs reduce emissions, renewable energy sources provide clean power, and smart grids optimize energy use, collectively driving EKA Mobility's commitment to a greener and more sustainable future.

EKA Mobility's Green Revolution: Securing Electric Bus Orders for a Sustainable Tomorrow

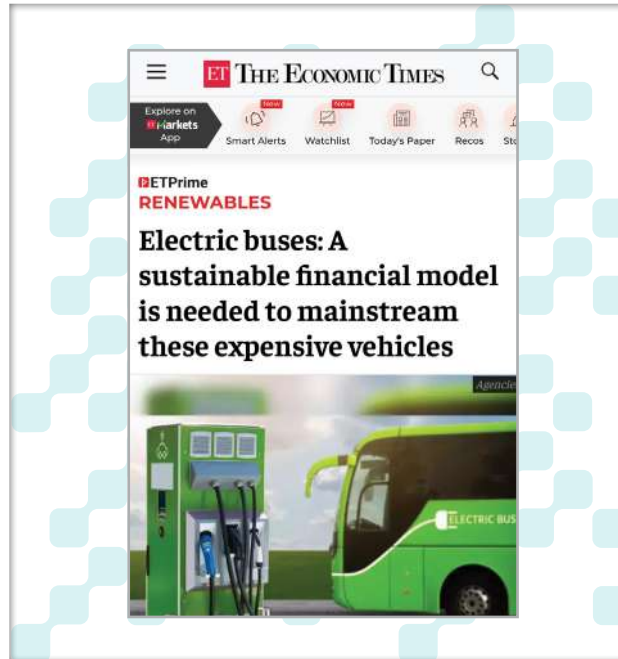

EKA Mobility is making significant strides in the electric bus manufacturing sector. The company recently secured orders for the supply of 57 electric buses from the Mira-Bhayandar Municipal Corporation. Impressively, out of the 500 orders they've won, 200 were secured in just the last few months. EKA Mobility's proactive approach in addressing payment security concerns with the government reflects its commitment to advancing sustainable mobility solutions in India. Our Founder and Chairman, Dr. Sudhir Mehta mentioned, 'The Government is working on addressing the payment security mechanism, and we have had several positive discussions with the government on this.'

Cabinet Decision to Deploy 10,000 e-Buses A Pioneering Step, Say Automakers

In a significant development, the approval of 'PM-eBus Sewa highlights India's pioneering role in global sustainable mobility. Sudhir Mehta, Chairman & Managing Director of Pinnacle Industries Ltd. & EKA Mobility, praised this initiative's worldwide example. EKA Mobility eagerly aligns its environment-conscious mobility products, designed and manufactured in India, with this mission. Mehta stressed their commitment to a greener future and readiness to contribute expertise. This visionary initiative strengthens India's public road transport infrastructure, benefiting citizens, industry, and the economy.

EKA Mobility: Centre Weighing One-Year Extension for Auto PLI Scheme

In a collective industry plea, EKA Mobility highlights the importance of extending the Auto Production Linked Incentive (PLI) scheme by another year. Sudhir Mehta, Founder and Chairman of Pinnacle Industries, a proud applicant under this initiative, expressed understanding of the government's initial timeline delays, considering the novelty of the scheme. This proposed extension aims to bolster the support for sustainable mobility and further fortify the growth prospects of the industry. Stay tuned for more updates as we work towards a greener and prosperous future.
